Duration:

5 days

Time:

8:00 a.m. to 3:24 p.m.

Address:

Hasselager Allé 2, Viby

Total price:

For skilled and unskilled workers: 1.040 kr.

For people with a higher education: 5.156 kr.

Learn to Operate a Telescopic Loader with Forks

The course is suitable for both skilled and unskilled individuals who want to significantly expand their job opportunities. In five days, participants receive a certificate for telescopic loaders and similar multifunctional machines, which are widely used in various industries for working at heights, such as construction, industry, agriculture, and the logistics sector.

What You Will Learn

With the certificate in hand, you can safely and competently operate telescopic handlers with forks and personnel baskets, as well as telescopic handlers with rotation and fixed booms. The course covers driving techniques and maneuvering, how to use telescopic handlers safely and responsibly as personnel lifts, how to select appropriate lifting accessories, and the correct stacking and stowing of goods.
